RUDRU VENKATESH

Vijayawada, India | +91 9989120851 | rudruvenkatesh9@gmail.com | LinkedIn | GitHub

Professional Summary

Fourth-year Computer Science Engineering student looking for an internship to apply full-stack development and problem-solving skills in a real-world setting. Developed a full-stack online car rental platform with booking workflows and backend database operations, and an AI/ML-based plant disease detection system at a college hackathon using image classification models. AWS Certified Cloud Practitioner with hands-on exposure to Spring Boot, React.js, Docker, and Git/GitHub.

Technical Skills

- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, Software Development Life Cycle (SDLC)
- **Backend Development:** Spring Boot, REST APIs, authentication, role-based access control (RBAC)
- **Databases:** SQL/MySQL, relational schema design
- **Cloud & DevOps:** AWS, Docker, CI/CD pipelines, Git/GitHub
- **AI/ML:** Python, Machine Learning Fundamentals, Generative AI (Beginner)
- **Frontend & Collaboration:** React.js, Agile/Scrum, Jira

Projects

Car Rental System — React.js, Spring Boot, REST APIs, MySQL, Docker

- Developed a full-stack car rental platform using React.js and Spring Boot, enabling users to browse vehicles and check availability.
- Built REST APIs for user authentication, car management, and rental operations, integrating the frontend with backend services.
- Used database integration to manage car and user data, and Git for version control and project management.

Plant Disease Detection System — Python, ResNet-50, DCGAN, TensorFlow, Streamlit

- Developed an AI-powered plant disease detection system using ResNet-50 to classify diseases from leaf images.
- Preprocessed and normalized PlantVillage datasets and used DCGAN to generate synthetic images, addressing class imbalance.
- Built an interactive Streamlit application enabling users to upload leaf images and receive automated disease predictions.

Education

B.Tech in Computer Science — AI Systems for Visual Intelligence, KL University *Aug 2023 – May 2027*

CGPA: 8.03 / 10.0
Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Machine Learning, Software Engineering

Intermediate Education (MPC), V.J Junior College *2021 – 2023*

Score: 68% (680/1000)

Secondary School Certificate, Nirmala EM High School *2020 – 2021*

Score: 478/600

Certifications

- **AWS Certified Cloud Practitioner (CLF-C02)** — Validated knowledge of cloud architecture, network security, and scalable infrastructure deployment (March 2026).
